

LISHA CHEN

morninglisha@gmail.com <https://lisagh.github.io>

202-436-6428 Kenmore, WA

Software Engineer with an HCI/UX background specializing in front-end implementation for large-scale products, translating complex interaction design into accessible, production-quality interfaces using React and React Native.

EXPERIENCE

Software Engineer II, full-time | **HBO Max**, Bellevue, WA | 11/2021 - Current

(Promoted from SDE I to SDE II in 2024)

Led front-end implementation for key HBO Max platform initiatives during the migration from React Native to React, rebuilding core web experiences and establishing reusable UI patterns across high-traffic product surfaces.

Owned front-end work for account, subscription, authentication, and payment flows across region-specific payment methods, supporting paid-content access for a 140M+ global subscriber base.

Improved platform quality and maintainability by building shared UI components for Home, Detail, and Schedule surfaces, optimizing performance, and resolving critical production defects, including an EFSR improvement from 97% to 98%.

Drove AI-assisted engineering workflows across the team, including AI-generated unit tests and a CI failure summarization tool, streamlining testing and accelerating PR reviews.

Software Engineer, contract | **eBay**, Bellevue, WA | 09/2019 - 06/2021

Built a React-based internal campaign management platform from 0 to 1 as the primary front-end engineer for eBay's Marketing Tech, enabling operations teams to manage, monitor, and optimize merchant advertising workflows.

Designed and developed reusable UI components and data visualization dashboards for campaign analytics, collaborating with designers, PMs, and backend engineers.

UX Designer, contract | **John Deere**, Moline, IL | 12/2018 - 07/2019

Designed UI features for embedded touchscreen systems on John Deere Combine harvesters, translating new hardware capabilities into updated interaction patterns and control layouts.

Collaborated with hardware engineers and product teams to align UI design with embedded system constraints.

EDUCATION

Master of Science in Human-Computer Interaction

Indiana University, School of Informatics, Indianapolis, IN 2016 - 2018

Bachelor of Business Administration in E-Commerce

Xiamen University, Xiamen, China 2011 - 2015

SKILLS & AWARDS

React, React Native, TypeScript, JavaScript, HTML/CSS, CSS Animations, Web Accessibility (WCAG), Design Systems, Figma, Performance Optimization

Red Dot Award Winner 2026, Brands & Communication Design - Engineering Lead, PawPath
